Start Smart Programs, created by the National Alliance for Youth Sports, help kids get ready for youth sports. Parent-child groups perform motor skill tasks that gradually build confidence in children while they are having fun at the same time.

In this program, parents/guardians join their children on the field/court to enjoy in the fun of learning a sport together! Get ready to get up and get moving with your child in the Start Smart program.

The Stepping Stones program for kids age 5-6 is a transition from learning the basic fundamentals of sports to playing in a league.

In this program, participants will have a 20 minute practice/clinic and a 20 minute game on the same day. These games will have less people on the field/court than a normal game and will be centered around teaching/learning not competing.

To register in person, visit one of our community centers.
